Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at http://about.jstor.org/participate-jstor/individuals/early-journal-content.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

PUBLICATIONS RECEIVED.

AUERBACH, FELIX. Die Weltherrin und ihr Schatten. Jena, Fischer, 1902. 8vo, 56 pp. 1.20 marks. — BASTIAN, H. C. Studies in Heterogenesis. Pt. II. London, Williams & Norgate, 1902. Pp. 63–147, xi–xvii, Pls. VI–X. 7/6. — CUNNINGHAM, J. T. Sexual Dimorphism in the Animal Kingdom. A Theory of the Evolution of Secondary Sexual Characters. London, Adam & Charles Black, 1900. 8vo, xi + 317 pp., 32 figs. — ELIOT, IDA M., and SOULE, CAROLINE G. Caterpillars and their Moths. New York, Century Company, 1902. 8vo, xiii + 300 pp., 80 figs. $2.50. — GELERT, O., and OSTENFELD, C. H. Flora Arctica. Containing Descriptions of the Flowering Plants and Ferns found in the Arctic Regions, with their Distribution in these Countries. Pt. i, Pteridophyta, Gymnosperma, and Monocotyledons. Copenhagen, 1902. 8vo, xi + 134 pp., 95 figs. — International Catalogue of Scientific Literature. First Annual Issue, vol. i, M, Botany, pt. i, 378 pp.; vol. ii, D, Chemistry, pt. i, 468 pp. London, Harrison & Sons, 1902. 21 shillings each vol. — LAUNER, A. Naturlehre. Wien, Jos. Roth, 1902. 8vo, ii + 377 pp., 377 figs. — WILLEY, ARTHUR. Zoölogical Results based on Material from New Britain, New Guinea, Loyalty Islands, and elsewhere, collected during the years 1895, 1896, and 1897. Pt. VI. Cambridge, University Press, 1892. Pp. 691–830, Pls. LXXVI–LXXXIII, and text-figs.

ALLEN, E. T. The Western Hemlock. *U. S. Dept. Agr., Bull. Bureau Forestry*, No. 33. 55 pp., 13 pls. — BERRY, E. W. Notes on the Phylogeny of Liriodendron. *Bot.
